

The Stalbridge Hall has been used extensively through this financial year. The three halls in the complex are used by the community, for a large range of activities, sport and social gatherings,

we have also supported the Youth Club with other organizations, to keep the facilities running as it has lost its central funding, this is now running in a very positive manner with financial security.

The trustees have continued the up-dating and maintenance programme, with all the halls redecorated, and updating some of the doors and supplying access to the baby changing facilities from the hall.

A programme to up-date the main hall toilets has begun and it is hoped to be completed by the end of the financial year (2018/2019)

The progress will be completed with the help of the 'Blackmore Vale Lions' and other external contributions.

We are proposing to up-date the stage curtains and back drops with the help of the Stalbridge Players.

None of this could be achieved without our great fund raising committee which once ~~again~~ ^{again} has organised some lucrative events throughout the year.

We would like to thank them, and all our helpers for their efforts.

Looking to the future we still have in our programme some other improvements to achieve, mainly a storage extension so we can easily supply furniture to all areas for convenience and for extra equipment to make the hall more attractive for other functions.

Planning permission for this extension has been obtained and a grant application is in progress to fund the project.

We would also like to build an entrance porch to the main hall to improve the whole appearance of the building.

The trustees would like to thank the community for helping to support activities over the last financial year, with a special thanks to our secretary and treasurer, also our caretaker for keeping the hall in tip top condition.
